SUBJECT: COUNTER-INTELLIGENCE ACTIVITIES OF CAPTAIN SKURIN.

REFERENCE: BSC 609, dated 9 November 1946.

1. Source has been active in the CI field for Captain SKURIN for the past year. During this time his primary function was the tracing of individuals who were of interest to SKURIN's office. Approximately forty names were given source for tracing during this period, with addresses in both the city of Berlin and the Russian Zone. Of these, source succeeded in establishing the whereabouts of 16, while definite information was obtained on the death of another 6--(a very creditable effort in view of the difficulty in tracing people in Germany today.)

2. Source did not keep a written record of his activities and had only a few symbols in his calendar to help his memory.
